# Directions

## Tree & Santa Shape-Book Covers

1. Print the cover on cardstock.
2. Put the cover and 2 sheets of white cardstock together.
3. Draw a line around the shape book. This is to make cutting out covers and pages much easier.
4. Cut on the line.
5. One piece of white cardstock is the back of the book.
6. Label one piece of cardstock "pattern for pages for the Santa book". Cut out the pages and put in the book.
7. You can put the books together with a variety of materials: rings, book binders (when drawing around the cover make one edge straight for the binder), pipe cleaners, dental floss (sew one edge with the floss), jute or string (ribbon would be cute for the Christmas books), or staples.
8. Each child can have a page in the book. The books can be put in a center for writing or reading during centers. You can give every student a page and everyone can draw/write at the same time and then you can assemble the book.
9. If you use the book with the entire class, give each child a blank page and put the book cover under the document camera so the students can see the vocabulary words.

pattern for  
pages for  
the Santa  
book
